

### Simple and Affordable

#### Easy Redox Titrations

Everything you need for inflection-point Redox titrations. This versatile titrator has a platinum ring redox-sensing electrode making it the ideal instrument to meet the needs of food, beverage, galvanic and even environmental analyses.

#### Easy App Guidance

This titrator has been especially designed for simplicity. New operators are already familiar with the Smartphone like Apps oriented user interface. Start your routine analysis with a LongClick™ on the home screen. The intuitive navigation speaks your language and 14 others. Learning and using a new analytical instrument has never been so easy.

#### Swiss Engineered

EasyPlus™ Titrators are designed and constructed by our Swiss development team according to the highest possible software and hardware standards. Their renowned expertise has made the impossible possible; to develop such a high quality instrument with such a small footprint.

#### iTitrate for Easy Programming

iTitrate Intelligence makes method programming simple with EasySetup guidance. Set only the minimal parameters and the titrator programs the rest, including correct calculations based on desired measurement units. Easy setup equals swift implementation.

#### Easy Ox Titrator The Redox Titrator

The EasyOx Titrator speeds up and simplifies automated reduction and oxidation (redox) titrations. The simple 'App' style user interface reduces training time while increasing work speed and simplicity. iTitrate Intelligence's guided set-up assists in method programming to ensure samples are tested consistently, regardless of operator, and with minimal effort. Eliminate manual calculations and documentation with a printer or EasyDirect™ Titration PC Software.

The Easy Ox Titrator's platinum ring electrode makes it ideal for the following applications and many more:

- Vitamin C determination in food and beverages.
- Peroxide value of cooking oils.
- Reducing sugar content in wines and juices.
- Hydrogen peroxide content of cleaning and plating solutions.
